Diversions Newsletter

Comment:

I'll admit it: I usually open my AWS bill and toss out the Diversions newsletter (in the recycle bin, of course) without even reading it. This time the "Weird Waste" article caught my eye. After reading it, I moved on to the next article, and the next, and the next. Every single article in the newsletter was interesting and informative, and it led me to check out your website for more information. You can be sure I'll be a loyal reader from now on. Keep up the good work!
