In Support of CCCSWA's Recycling Award:

We've worked with CCCSWA and its Wastebusters Program since its inception seven years ago. The Wastebusters Program and the free resources provided to our school have enabled us to develop a superb recycling and source reduction program. The Wastebusters Program awards have allowed us to pay for field trips, build gardens and provide other extras for our students that would not have been possible without it. We've been able to start a pilot food waste recycling program that diverts about 300 pounds of waste per week. Our custodian recently won the Wastebusters Custodian Award and received a gift certificate for being a good example to the students. We had other assistance with lunch presentations, field trips and free containers.

CCCSWA staff and the recycling coordinator have provided outstanding and crucial services to help us maintain our recycling programs. CCCSWA deserves to be recognized for the "Next Generation" CRRA Award.

Signed,

Debórah L. Walker
Science Teacher, Recycling Program Coordinator

Heather S. Duncan
Principal, Buena Vista School
